# The Freedom School

*A unique educational institution dedicated to the  
libertarian philosophy of individualism.*

*A place of learning based on the American ideals of  
personal liberty and free enterprise.*

## *Where Is It To Be?*

320 acres of beautiful wooded Colorado mountain terrain form the site. It is known as "Glenrose Park" and is just four miles north of Palmer Lake on the old Perry Park Road. (See map.) This is just a few miles north of the Air Academy and a few miles south of the proposed new sports stadium at Castle Rock. The property is a mile long and a half-mile wide. It is crossed by a rushing mountain stream and is criss-crossed by many mountain trails which can be taken on horseback. Wild life, such as deer, antelope and bear, is plentiful.

## *What Courses Will Be Offered?*

To begin with, only one. A basic 72-hour course which will underline man's discovery of freedom and how the American experiment in freedom has brought the highest rewards of any system ever attempted. Other courses will be offered later in economics, history, English and political science. But the libertarian philosophy, truly *the American philosophy*, will be the original course of study.

## *Who Can Take the Course?*

Any American citizen 16 years of age or more. The course is college level, but will be made available to outstanding high school students. Special attention will be given to teachers and other educators who wish to avail themselves of it. It is offered nowhere else in the United States.

## *Any Reason Why I Should Take It?*

Nearly all of us speak up for freedom and free enterprise. But do we do so effectively? Do we really know the answers? And if we know them, can we express them so that others will understand why we believe as we do? These are questions you can ask yourself. Your answers will determine whether or not you could benefit by taking the course yourself.

## *How Long Must I Stay at the School To Take the Course?*

Only two weeks. The course of instruction is not for sissies. Life as it really is, can be a rugged affair. What this country needs is a few more rugged individuals who know the score. The Freedom School isn't interested in coddling. Frankly, it wants to find leaders and potential leaders. The school is looking for Americans who haven't forgotten how to think. However, plenty of time will be available for recreation and free time pursuits in addition to the regular lectures, reading assignments, discussion and testing.

## *What Is the Cost of the Course?*

Full price, which includes room, board (delicious meals), horseback riding and the finest of dude ranch living for the two-week period, comes to \$75.00 per week. The total is \$150.00. It is America's finest educational bargain.

## *Is The Freedom School Accredited?*

No. The school isn't concerned with issuing credits or diplomas. It is concerned with education. If you want credits or diplomas, go elsewhere. If you want to really give your brain cells a renovation, this is the place.

## *When Will the School Open?*

That's the big question. It is scheduled to open in June of 1957. Students have already signed up for the opening sessions. But we are in the process of building the school. And frankly, that's why we are handing you this little folder. *We need your help!* We've got some of the students. More are indicating their interest every day. But, because the school is completely free

enterprise and will not accept tax money for any purpose nor under any pretext, all of the money required to complete our building program must be raised by voluntary subscription.

### *You Mean You Haven't Even Started?*

We've started, all right. In fact we've gone a long way. But we must raise a total of \$100,000 to complete our first year's budget. Nearly half of this sum is already pledged by means of loans and gifts. But we must get all of it in order to do the job. Our plans are simple. (Please look them over.) All construction is to be rustic and in native Colorado style. Two of our buildings are complete. But we must build a third building which will contain our principal lecture hall. We must also modernize five cabins, each of which will accommodate four students. And we certainly want our library and chapel.

### *How Can I Help?*

It's very simple. We need money. Costs of the buildings to be built are right on the plans. You can help in any degree you feel you should.

### *What About Tax Exemption for My Gift?*

The school is organized as a non-profit corporation under the laws of Colorado. Federal law requires that it be in existence for one year before tax exemption can be obtained. It is organized in such a way that tax exemption is virtually assured.

### *How Is Your Fund-Raising Campaign Going?*

Exactly as it should.

### *What Do You Mean?*

So far as we know, everyone has given us or is giving us exactly the amount of money he wishes to give us. Nothing could be better than that. The whole program of the school is based on voluntary individualism. The school will neither practice nor teach coercion. That is why we are handing you this little publication . . . so that you can voluntarily do exactly what you would like to do.

## *Has This Course Been Offered Before?*

A pilot course of 10 hours on which the full 72-hour course is based, has been taught to various students in different parts of the country. Here is what some of them say about it:

"It has been time very well spent. I would recommend it to anyone."

"It is effective. We need something like this more often."

"I enjoyed the meetings. I feel that I can now talk and think about the subject of liberty better and would like to go into it further."

"It has been a privilege to have been a member of your first Freedom School class. My understanding of this, our precious heritage of freedom, has been increased until it has become a part of me."

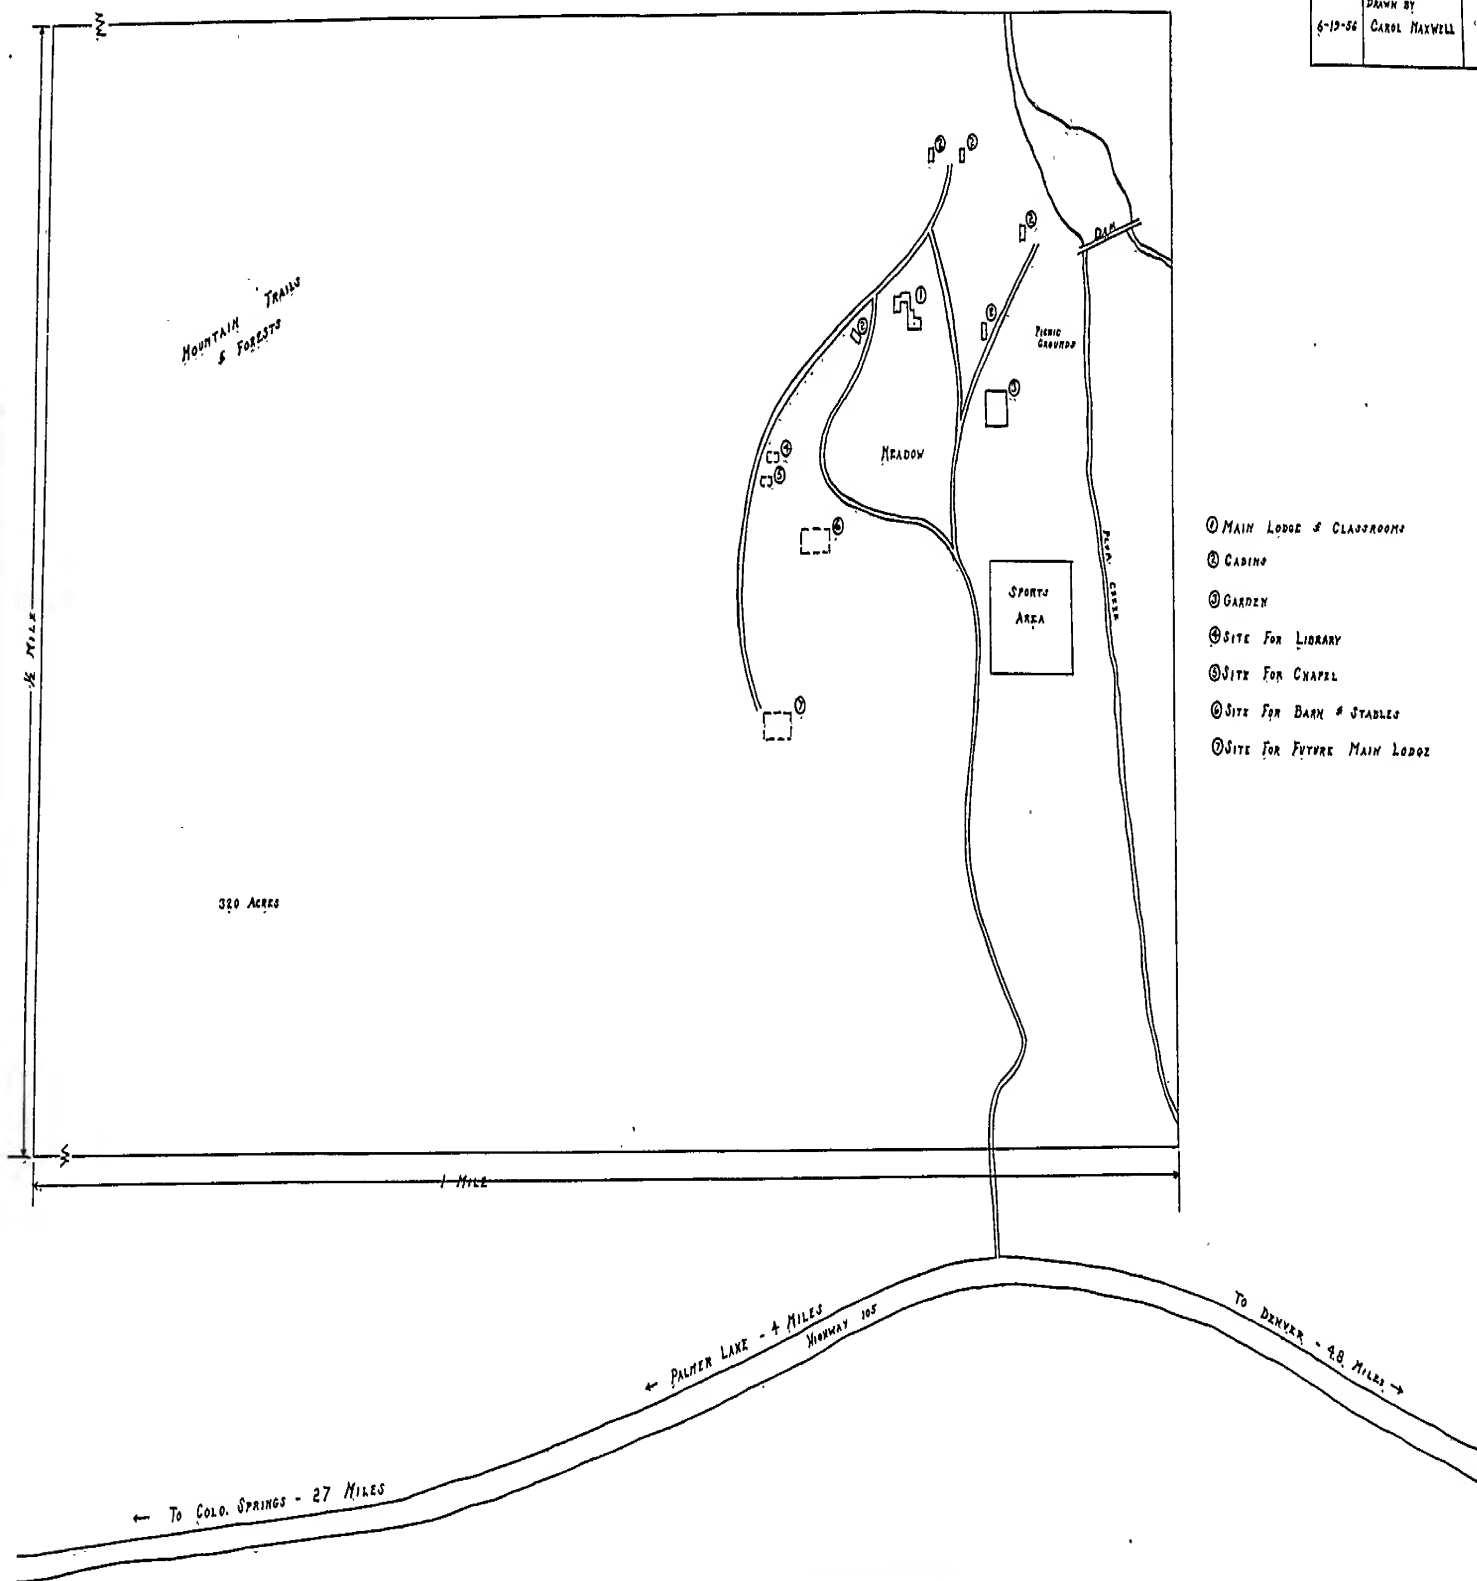

## *What If I Have Some Questions You Haven't Answered?*

Why not ask them? The school is happy to answer all correspondence. Address your inquiry to THE FREEDOM SCHOOL, Box 165, Colorado Springs, Colorado.
